

LET IT GLOW

What does it mean
To be a bible machine
In a planetary system
That rotates without a dream?
I'm not a number but a name
So please excuse me all the same
If I sing about love
Truth and a world that lives in pain

Oh Oh Oh Oh, x3
Let it go, let it show, let it glow

What does it mean
To fill the pews on the weekend
Ignoring the world
That's dying just outside the door?
This little light of mine
I'm about to let it shine
This microphone is for the streets
Not for VIPs in seats
